

ecom-B

COMPACT, HAND-HELD FLUE GAS ANALYZER

- Longlife sensors
- Longlife cycle battery
- CO sensor overload protection
- Ultra-light aluminium housing

ecom-B Flue Gas analyzer

- O₂/CO (H₂-comp.) Longlife sensors
- Aluminium housing fitted with magnets on the back
- Integral LiFePo₄ high performance battery with long lifecycle
- Sampling probe ø 8 mm, length 150 mm, with fixation cone; 3-chamber sampling tubing length 1.5 m
- T-Room sensor (PT 2000) 100 mm with cable 1.1 m, fixation cone
- Mains charger included
- Optical condensate monitoring
- Calibration certificate

Sensor Gas Option

- NO measurement (NO sensor)

Accessories

- Differential pressure tubing
- Manual soot pump set (incl. filter papers, comparison scale)
- ecom-P (infrared printer)
- T-Room stick (PT 2000)
- T-Room probe 260 mm
- Sling pack
- Plastics transport case
- Transport bag incl. comfort carrying strap

Note

- Recommended for control measurements on heating systems

Dimensions (W x H x D) 200 x 125 x 70 mm

Weight approx. 1,5 kg (complete)

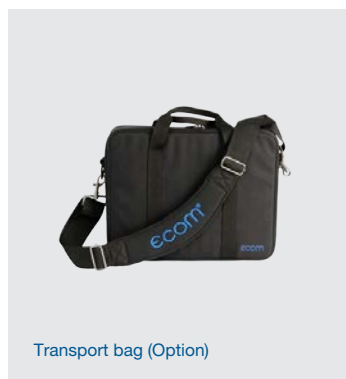

Measurable Gases

■ = Base; ■ = Optional EC

Testing according to DIN EN 50379-2 and 1st. BImSchV.

ecom-B

FLUE GAS ANALYZER IN MINIATURE SIZE

Embedded in a protective aluminium cover with fixation magnets on the back offering space for the stowage of the complete sampling system.

Product features identical to above model, except:

Dimensions (W x H x D) 250 x 180 x 80 mm

Weight approx. 2,1kg (complete)
